

# B220

Le modèle B220 est un échangeur de chaleur à plaques brasées compact mais très efficace, offrant une excellente efficacité de transfert thermique à faible coût. L'une de ses principales applications est le chauffage haute efficacité de l'eau chaude sanitaire (ECS), mais on peut aussi l'utiliser dans d'autres applications à une phase telles que le refroidissement de l'huile, le chauffage domestique et les désurchauffeurs. Grâce à sa construction à deux types de plaques, on peut varier la longueur thermique pour obtenir un produit personnalisé aux performances optimales pour chaque application.
