

B5AS

Le B5AS permet d'obtenir un échange thermique efficace dans des applications à faible débit qui exigent un espace restreint. Facile à installer et utiliser, ce produit est compact et polyvalent. C'est donc un choix bien adapté aux refroidisseurs d'eau ou d'huile de petite taille. Le B5AS est équipé de notre technologie brevetée AsyMatrix® et fournit une performance supérieure pour des dimensions/poids identiques, permettant une économie d'espace et de poids.
